BRAIN, BEHAVIOR, AND IMMUNITY

A New International Journal from Academic Press

EDITOR-IN-CHIEF
Robert Ader

ASSOCIATE EDITORS
Nicholas Cohen and David Felten

University of Rochester School of Medicine and Dentistry, Rochester, New York

Brain, Behavior, and Immunity presents research in a new and expanding area concerned with the interactions between the nervous system and the immune system at the molecular, cellular, and organismic levels. Addressing the relationships among behavioral, neural, endocrine, and immunoregulatory processes, this interdisciplinary journal will broaden the perspective and extend the boundaries of the neurosciences and immunology.
